

Eastgate/Meadowood Septic to Sanitary Sewer Conversion

PROJECT UPDATE & MEETING NOTICE

The sewer conversion project is finally nearing the end and should be completed by July 1st. DiGioia Contracting is currently rough grading the swales and will soon start the process of in-place recycling of the roadways. The next step is to adjust all manholes to grade and, once completed, paving will begin—likely by the second week of June. Once paving is completed, driveway aprons will be installed and final restoration of the area will begin.

The Village has scheduled a final meeting to answer any remaining questions about lateral connections and abandonment of the septic systems. A representative from the Northeast Ohio Regional Sewer District will attend to provide information about future sewer billing.

The meeting will then be turned over to neighborhood representatives who have been working to obtain quotes and information from registered contractors who are available to assist with any work needed on your property.

This meeting will be held on:

Tuesday, June 23, 2015 @ 7:00 p.m.

Mayfield Village Civic Center
6622 Wilson Mills Road / Mayfield Village, OH 44143

If you have any questions, please contact :
Village Engineer Tom Cappello at 216-731-6255 or
Service Director Doug Metzung at 440-442-5506 or
