Important Notes

1. Elevators are available but once you reach your section, you will have to take stairs to reach your row (except for wheelchair accessible seats where you can use elevator and then a ramp).
2. The Cavs have a ticket program called Flash Seats. Flash Seats is an online ticket service. If you do not have a Flash Seats account, you will need to set up an account using the email address you provide us on the front (if you already have an account, you must provide the email you use for that account). You should set up your account in advance. Log onto <http://cavs.flashseats.com/> At the top middle of the page, click on **Register** and fill out of the information. After filling out the registration information, and we add the tickets to your account, your tickets will be loaded onto a card you provide, either a credit card or a driver's license. This card is your entrance into the game. They will swipe your card upon entrance to Quicken Loans Arena. Or you can also have the tickets on your phone if you download the Flash Seats mobile app. **The tickets will be added to your Flash Seats account no later than February 1.**
